California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	911 Outage

911 Outages/Remote/Community Isolations:

Landline Outage, City of Furnace Creek, Inyo County

On 03/16/18, the California State Warning Center was notified of an landline only 9-1-1 Outage in the city of Furnace Creek, Inyo County (689 customers). Inyo County Sheriff's Office (ICSO) is the Primary Safety Answering Point (PSAP) for this area. They are fully operational and not affected by this outage.

- AT&T has advised they believe the loss of dial tone for landline customers is due to the weather affecting their microwave system.
- Cellular 9-1-1 calls are not affected by this outage.
- At this time there is no estimated time for the restoral of service to this area.
- Cal OES 911 Branch is aware of the outage, monitoring and providing updates as they are available.
- The Cal OES Duty Officers have been notified and will provide updates as warranted.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

- Sierra travel is highly discouraged until Saturday. If you must go, prepare for chain controls, lengthy delays, road closures, & treacherous driving conditions.
 - Winter Storm Warnings are in effect for the Sierras through 03/17/18 at 0500 hours.
- A low pressure will produce periods of showers and low elevation snow through Saturday for portions of Southern California valley and mountainous locations.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

The wet unsettled weather will continue throughout Northern California today. Winds will be lighter and snow levels will range from 1,500 ft. in northern areas to 3,000 ft. at the southern end of the region. Thunderstorms are also expected. The activity will diminish to scattered mountain showers tonight. The shower activity will increase Saturday afternoon, then diminish Saturday night and Sunday, but a few are still likely in the mountains Sunday afternoon.

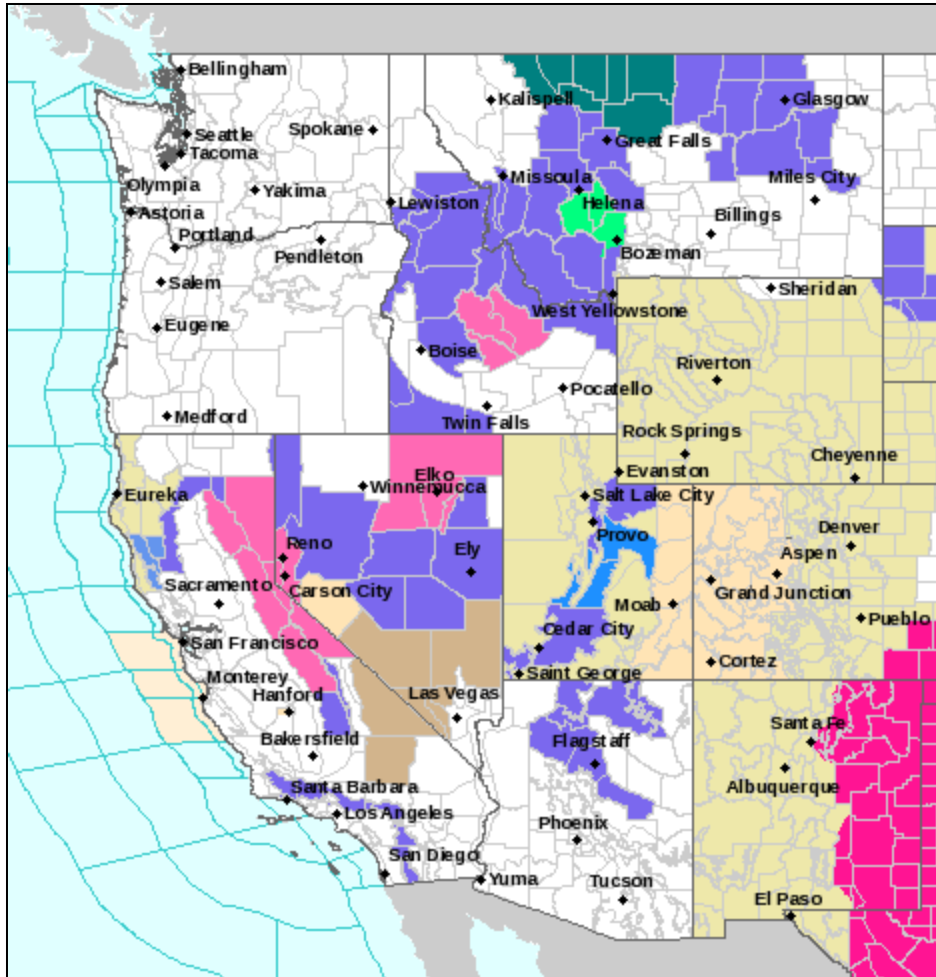

Monday looks clear, dry and warmer, but the next Pacific storm system will move onshore Tuesday afternoon with strong gusty winds and high snow levels. This storm will impact Northern California through the end of the week with heavy precipitation and strong winds. Late in the week colder air will move in and drop snow levels to 1,500-3,000 ft. again.

SOUTHERN CALIFORNIA

A low pressure area off the Oregon Coast will push two weak troughs across the area through Saturday. The first one will bring scattered showers to the central coast throughout the day before pushing southward into the region this evening into the overnight hours. Steadier precipitation will be likely this afternoon along the central coast and Sierras this afternoon where up 1.50" of precipitation is likely. Snow accumulations in Sierras north of Madera County will be over a foot over 5,000 feet. The rain will be less organized by the time it arrives to the region, but intermittent precipitation can be expected over the region tonight through Saturday, mainly near the higher terrain. Rainfall accumulations along the coast and valleys will generally be around 0.25", but some areas of the Angeles and Cleveland National Forest may see over an inch of rain. Snow levels will be lower than the past few storms and accumulations over 6" will be possible around 5,000 feet in the mountains of Southern California. Temperatures will remain 5-10 degrees below normal through the weekend. West winds of 20-30 mph will be possible in the mountains and desert. Next week, warmer weather is expected Monday and Tuesday with highs returning to the 50s in the mountains to the mid and upper 70s at lower elevations under partly sunny skies. A stronger storm is forecast to arrive Wednesday night into Thursday. This storm may bring heavier and perhaps more intense rainfall along with lower snow levels. No significant offshore winds are expected throughout the period.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-45677, 03/15/18, 0836 hours:** The Alpine County Sheriff's Office requested a search helicopter to assist in locating a subject last seen using a ski lift at the Bear Valley Mountain Resort. He did not return home later that evening and his vehicle was located at the resort's parking lot. Both the California Highway Patrol and the California National Guard deployed helicopters. Both helicopters were forced to land at the ski resort due to weather conditions. Alpine County continued ground searches, which have not been successful. On 03/15/18 at 1700 hours, Alpine requested additional resources for 03/16/18. They requested a total of 80 Type 1 Nordic ground personnel. Marin, Contra Costa, San Mateo, Placer, El Dorado, Tuolumne and Monterey counties were contacted for resources. In addition, Douglas County Nevada and the National Ski Patrol were contacted. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- **2018-Southern-44905:** Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County ([Enroute](#))
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
